ABOUT CORE WELLNESS

Core Wellness is a dynamic training group offering evidence-based, practical workshops via live/webinar and recorded webinar delivery. Our passionate and knowledgeable trainers bring engaging and inspiring CE trainings that stimulate the heart and mind for client care and effective clinical skills.

Core Wellness LLC is authorized by the Board of Social Work Examiners in **MARYLAND** to sponsor social work CE programs (for LMSW, LCSW, LCSW-Cs) and maintains full responsibility for all content. The trainings qualify for Category 1 continuing education units (whether taken in person or via live interactive webinar). Our credits are also accepted by the Board of Professional Counselors of Maryland (LGPC, LCPC and MFTs) and Board of Psychologists of Maryland. Additionally, Core Wellness, LLC is recognized by the **NEW YORK** State Education Department's State Board for Social Workers #SW-0569 and the **NEW YORK** State Board for Mental Health Practitioners, #MHC-0167. For **other states**, contact your board & let us know if we can help!

Course Schedule

Trauma Rewiring: 1 Hour CE

Part One: The Effects of Trauma

What is Trauma?

Peter Levine- All trauma has two ingredients:

- 1 - Extreme overwhelm
- 2 - Paralysis/helplessness

What is Trauma?

**Aspects
Of
Trauma**

Helplessness

Powerlessness

Overwhelm

Guilt

Anger

Sadness

Symptoms/ Impairment

- 
- ➔ Rage/withdrawal
 - ➔ Distrust
 - ➔ Overwhelm
 - ➔ Dysregulated emotions/Lack of recovery
 - ➔ Dysregulated thoughts
 - ➔ Dysregulated behaviors

Symptoms/ Impairment

Rage/withdrawal

Distrust

Overwhelm

Dysregulated emotions/Lack of recovery

Dysregulated thoughts

Dysregulated behaviors

Bodily function issues (sleep, food)

Disassociation

Preoccupation with caregiver

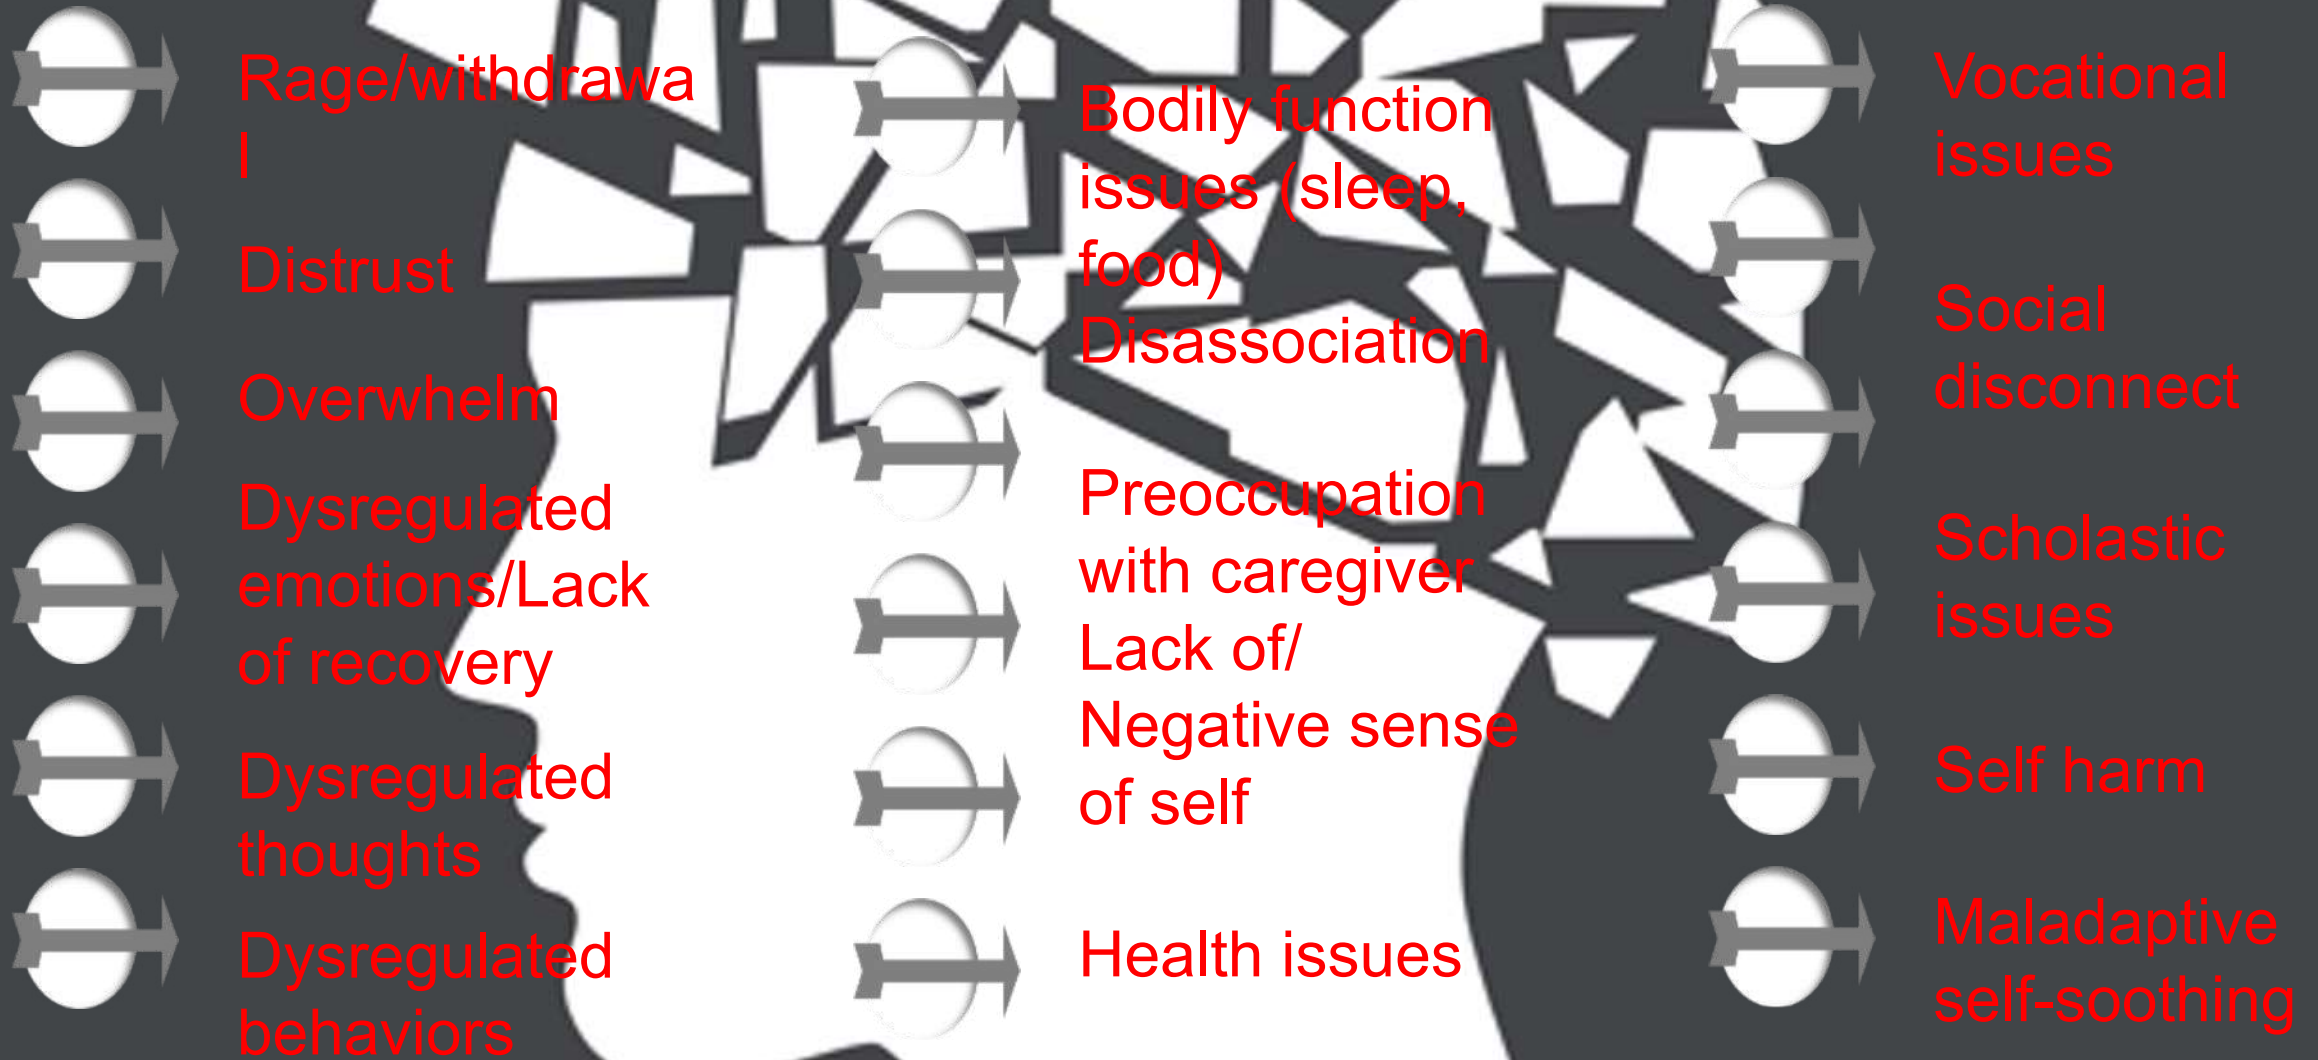

Lack of/
Negative sense of self

Health issues

Symptoms/ Impairment

“Trauma shocks the brain, stuns the body and freezes the mind.”

**-Dr. Bessel Van Der Kolk, MD
world renowned trauma expert**

Course Schedule

Trauma Rewiring: 1 Hour CE

Part Two: 5 Powerful Interventions

I don't go to therapy to find out if I'm a freak
I go and I find the one and only answer every week
And when I talk about therapy, I know what people think
That it only makes you selfish and in love with your shrink
But, oh how I loved everybody else
When I finally got to talk so much about myself

—Dar Williams, *What Do You Hear in These Sounds*

The Adaptive System

The Adaptive System

Too Much of a Good Thing
Lee Goldman, MD

The Adaptive System

The Adaptive System

Trauma is an adaptive response on steroids set up to protect while often working on overkill. Most maladaptive feelings, emotions and behaviors are simply a misplaced defense mechanism gone awry. It is an attempt to control, maintain or improve, with an inappropriate usage and application.

Imagination

*Memory is the historical accumulation of lies ...
Like memory, good fiction must have specific dates
and times; that way it seems to be true.*

—DANIEL SCHMID, SWISS FILM DIRECTOR

*There is no present or future,
only the past, happening over and over again.*

—EUGENE O'NEILL

Types of Memory

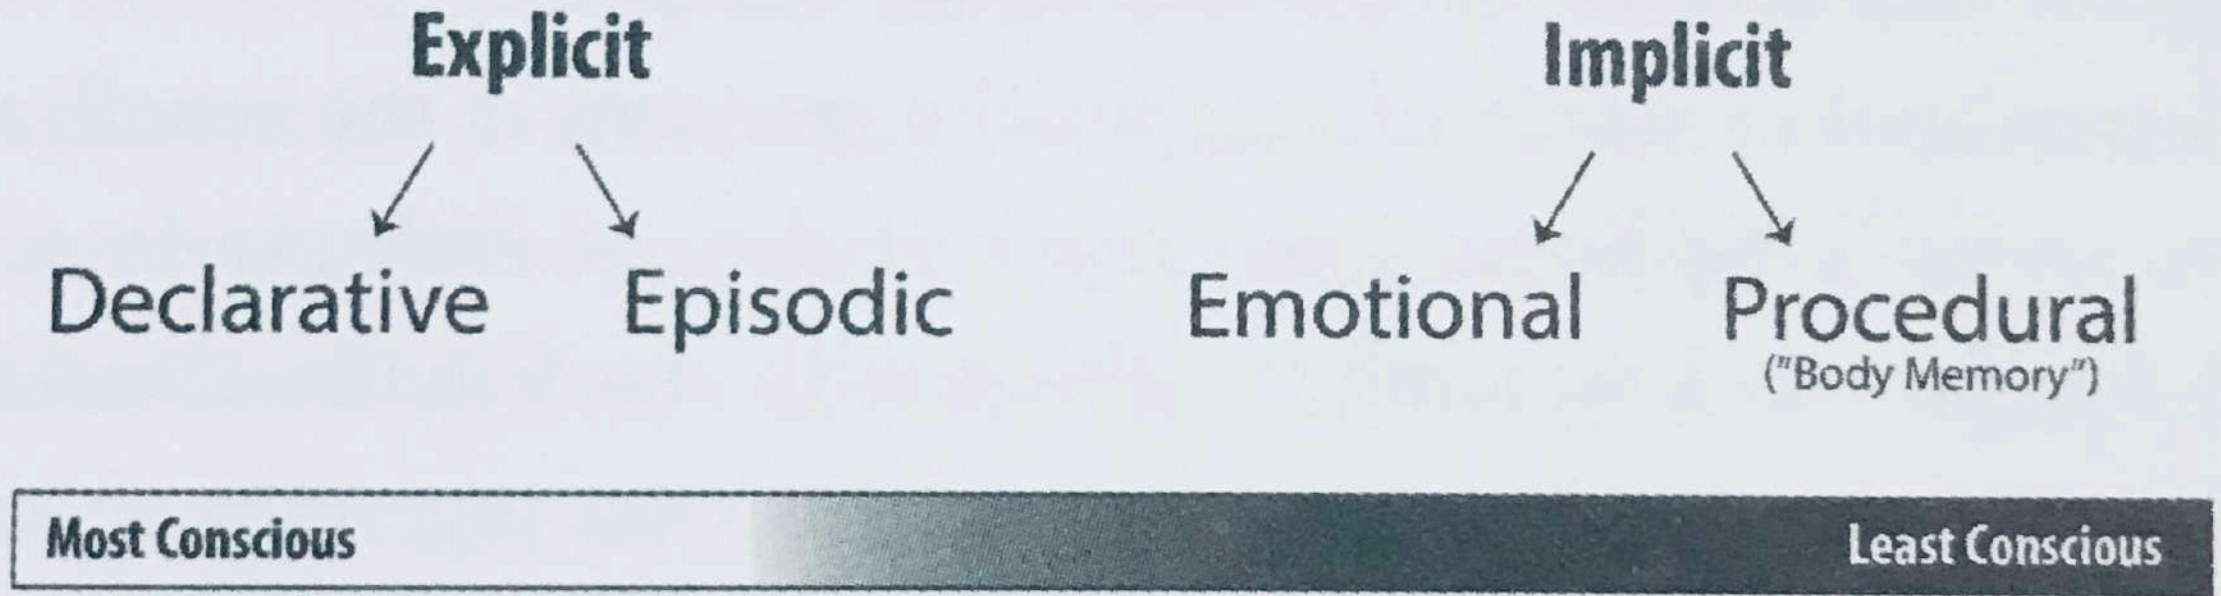

Figure 2.1. Basic Memory Systems

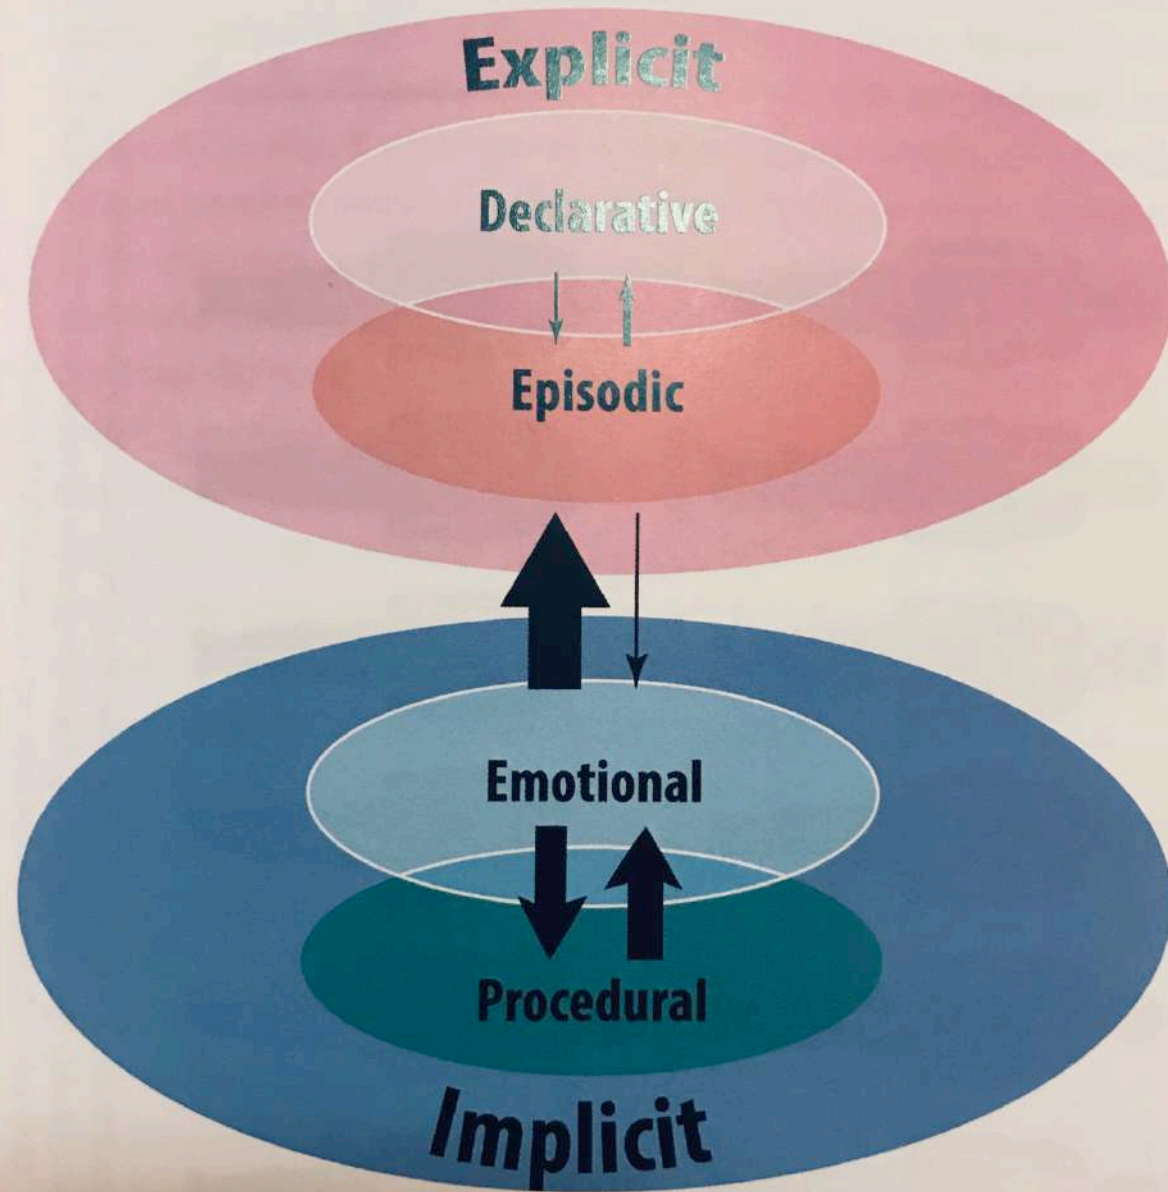

Figure 2.2 Interrelationship between Memory Systems

Memory Systems

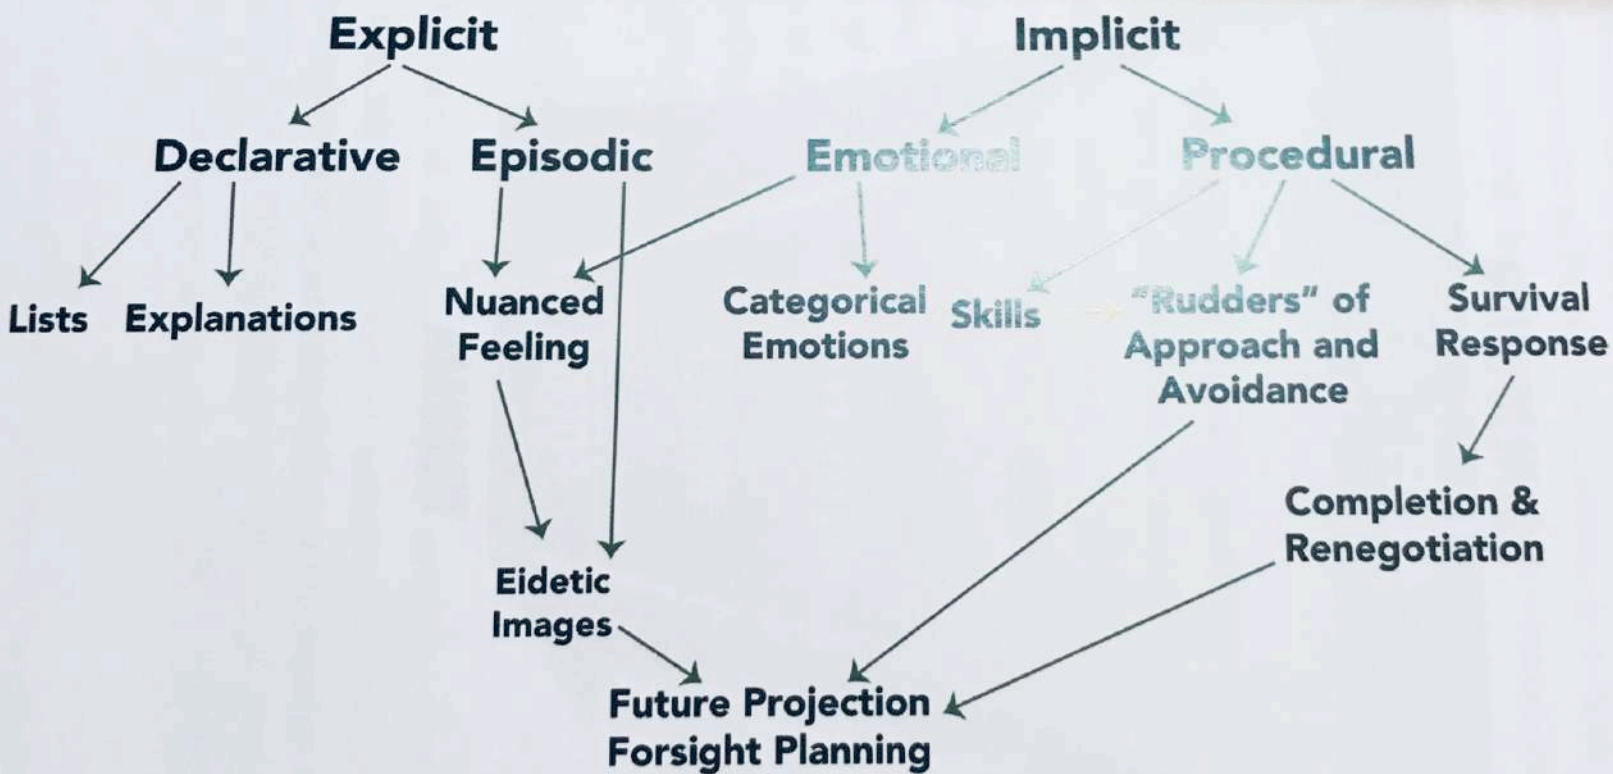

Figure 4.1 Relationships between explicit and implicit memory systems in planning and future projection (moving forward in life).

Step 1: Maladaptive autonomic nervous system levels

Step 2: Renegotiation

Step 3: Self Regulation

Figure 5.2 Window of Self-Regulation. The above charts show the renegotiation of hyperarousal (overwhelm) states and hypoarousal (shutdown) states in re-establishing the range of self-regulation and restoring dynamic equilibrium.

Intervention 3: Somatic Experiencing

"...a landmark work, a lucid scientific explanation of how nurture is the very foundation of our nature."
—Bessel van der Kolk, MD

THE POCKET GUIDE TO THE POLYVAGAL THEORY

*The Transformative
Power of Feeling Safe*

Demystify the Process

Narcissism – anxiety that results from childhood neglect or trauma, the motor that fuels the dysfunctional behaviors.

Psychic bleeding- collapse easily under pressure

Inordinate hypersensitivity – constantly insulted and injured by small things, deeply injured people who required undue caution and awareness to danger because of past.

Psychic rigidity – lack of tolerance to change and much general inflexibility

Negative therapeutic reactions – Narrow margin of security, often anxiety, anger,

Discouragement and depression

Feelings of inferiority

Self harm

Lack of self-assurance

Use of projection – unconscious psychological attempt to deal with own anxiety by attributing one's unacceptable attributes to the outside world. Leads to paranoid thinking

Challenges in reality thinking – distorted attitudes and behaviors with loved ones and therapists. Looked at therapist as all powerful and codependent on therapist while simultaneously critiquing and taking personal any slight comment and responding as if attacked with anger, discouragement and emotional withdrawal.

blurred vision

A top-down view of several people's arms and hands stacked in a circle, creating a central point of convergence. The hands are of various skin tones, including light, medium, and dark brown. Some hands have painted nails, and one person is wearing a black beaded bracelet. The background is a soft, out-of-focus blue-grey color. The overall mood is one of solidarity and collective strength.

Intervention 4: Hope & Connection

Symptoms/ Impairment

A close-up photograph of several people playing djembe drums. The focus is on the hands and the drumheads. The drumheads are light-colored wood, and the bodies are dark with a woven texture. The people are wearing various clothing, including a blue and orange cardigan and a white and pink striped shirt. The background is blurred, showing more people and drums.

Intervention 5: Activity

Components:

Bilateral stimulation
Movement
& Physical activity
Sensorimotor –
Visceral Experience
